## Dividend Monarchs Offer Attractive Income Potential

### Dividend Index Comparison

Source: Bloomberg, as of October 31, 2023. **Past performance is not indicative of future results. You cannot invest directly in an index. Index performance does not represent actual fund or portfolio performance. A fund or portfolio may differ significantly from the securities included in the index. Index performance assumes reinvestment of dividends but does not reflect any management fees, transaction costs, brokerage commissions on transactions. Such fees, expense and commissions would reduce returns.** Note: Index Dividend Yield is Index Estimated Dividend Yield which is defined as Estimated Dividends FY1 divided by last price. The Index Dividend Yield was calculated on October 31, 2023. The **S&P Dividend Monarchs Index** measures the performance of S&P 1500 companies that have increased dividends every year for the last 50 consecutive years. The S&P Dividend Monarchs Index inception date is 4/23/2023. The **S&P 500 Dividend Aristocrats Index** is designed to measure the performance of S&P 500 index constituents that have followed a policy of consistently increasing dividends every year for at least 25 consecutive years. The S&P 500 Dividend Aristocrats Index inception date is 5/3/2005. The **S&P U.S. Dividend Growers Index** is designed to measure the performance of U.S. companies that have followed a policy of consistently increasing dividends every year for at least 10 consecutive years. The index excludes the top 25% highest-yielding eligible companies from the index. The S&P U.S. Dividend Growers Index inception date is 6/1/2021.

#### KNGS Performance (as of 11/2/23)

<b>NAV</b>	Since Inception (11/2/2023)
<b>Market Price</b>	N/A%

Performance for periods greater than one year shown annualized.

The performance data quoted represents past performance. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. The investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than the original cost. Returns less than one year are not annualized. For the most recent month-end performance, please call (855) 561-5728. You cannot invest directly in an index. Shares are bought and sold at market price (closing price), not net asset value (NAV), and are not individually redeemed from the Fund. Market performance is determined using the bid/ask midpoint at 4:00pm Eastern Time when the NAV is typically calculated. Brokerage commissions will reduce returns. Short-term performance, in particular, is not a good indication of the fund's future performance, and an investment should not be made based solely on returns.

**Investors should consider the investment objectives, risk, charges and expenses carefully before investing. For a prospectus or summary prospectus with this and other information about the KNGS ETF please call 1-877-220-7649 or visit the website at <https://www.roundhillinvestments.com/etf/kngs/>. Read the prospectus or summary prospectus carefully before investing.**

Read the prospectus or summary prospectus carefully before investing. Investing involves risk, including possible loss of principal. Investing in dividend-paying stocks involves the risk that such stocks may fall out of favor with investors and underperform the broader market. Companies that issue dividend-paying stocks are not required to pay or continue paying dividends on such stocks. It is possible that issuers of the stocks held by the Fund will not declare dividends in the future or will reduce or eliminate the payment of dividends (including reducing or eliminating anticipated accelerations or increases in the payment of dividends) in the future. Investments made in small and mid-capitalization companies may be more volatile and less liquid due to limited resources or product lines and more sensitive to economic factors. Fund investments will be concentrated in an industry or group of industries, and the value of Fund shares may risk and fall more than diversified funds. Foreign investing involves social and political instability, market illiquidity, exchange-rate fluctuation, high volatility and limited regulation risks. Emerging markets may be more volatile and less liquid than more developed markets and therefore may involve greater risks. Depositary Receipts involve risks similar to those associated investments in foreign securities, but may not provide a return that corresponds precisely with that of the underlying shares. Please see the prospectus for details of these and other risks. The fund is passively managed and attempts to mirror the composition and performance of the S&P Dividend Monarchs Index. The Fund's returns may not match due to expenses incurred by the Fund or lack of precise correlation with the index.
